| **Resolution:** | Fixed | **Affected version:** | |

**Description**

logger.info (instead of logger.info?) can trigger an error

Line 185 :

```
logger.info "time entry could not be updated: #{time_entry.errors.full_messages}" if logger && logger.info
```

replace by :

```
logger.info "time entry could not be updated: #{time_entry.errors.full_messages}" if logger && logger.info?
```

### Associated revisions

**Revision 13766 - 2014-12-14 22:53 - Jean-Philippe Lang**

Use logger.info? (#18605).

### History

In which circumstances?

**#3 - 2014-12-14 22:21 - Jérôme BATAILLE**

Jean-Philippe Lang wrote:

> In which circumstances?

In fact it can't because nil is managed as the default value.

But logger.info always return true (http://www.ruby-doc.org/stdlib-2.0/libdoc/logger/rdoc/Logger.html#method-i-add), so you can't use logger.info to detect if info level is enabled.

**#4 - 2014-12-14 22:54 - Jean-Philippe Lang**

*- Subject changed from Typo in app/controllers/timelog_controller.rb to Wrong usage of logger.info to test log level*

*- Category changed from Time tracking to Code cleanup/refactoring*

*- Status changed from New to Closed*

*- Assignee set to Jean-Philippe Lang*

*- Target version set to 3.0.0*

*- Resolution set to Fixed*

Fixed in r13766 with another one, thanks.

**#5 - 2014-12-14 22:56 - Jérôme BATAILLE**

Thanks a lot again ! :-)
