

## Redmine - Feature #20812

### Highlight overdue issues and private issues in issue list

2015-09-23 03:51 - Go MAEDA

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Candidate for next major release		
<b>Resolution:</b>			

#### Description

Although CSS class 'overdue' on issues was implemented by [#2337](#), default application.css does not highlight overdue issues yet except for gantt.

This patch makes overdue issues and private issues clearly distinguishable in issue list.

I agree on displaying the due date in red on an issue that is overdue (second screenshot).

But for the issue list, I don't know. I find it confusing to have almost the same color the 2 really different things (overdue/private). And some people only use private issues in their projects, that would make a lot of red on the issue list.

Thanks for reviewing this.

But for the issue list, I don't know. I find it confusing to have almost the same color the 2 really different things (overdue/private). And some people only use private issues in their projects, that would make a lot of red on the issue list.

Updated the patch.

Like private note, red border on the left. Private and overdue are clearly identifiable.

- Target version changed from 3.2.0 to Candidate for next major release

[r14732](#) displays the due date in red on overdue issue details.

Styling the issue list is a nice thing but it's not easy to find something that is OK for most people. I personally wouldn't like to have all overdue issues displayed in red on the issue list.
