Redmine - Patch #22101

Set max-with to 100% for input, select and textea

2016-02-23 00:51 - Felix Gliesche

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	Jean-Philippe Lang	**% Done:**	0%
Category:	UI - Responsive	**Estimated time:**	0.00 hour
Target version:	3.2.1		

Description

This patch adds a global reset for the max-widht attribute on mobile for input, select and textarea elements

Without this reset i can happen, that form fields are wider than their container, e.g. because the attribute size was set. This is the case on the search page.
