Redmine - Defect #2385

Deleted files are shown when using Darcs as SCM provider

2008-12-23 01:15 - Timo Hübel

Status:	Closed	**Start date:**	2008-12-23
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	SCM	**Estimated time:**	0.00 hour
Target version:	0.8.1		
Resolution:	Fixed	**Affected version:**	

Description

The repository browser also shows deleted files and directories when using Darcs as SCM backend.

It seems like it is necessary to process the <modified_how>File removed</modified_how> elements in the Darcs XML output in the "entries" method in darcs_adapter.rb.

Redmine version used: 0.8.0.devel.2163 (MySQL)

Associated revisions

Revision 2189 - 2008-12-27 19:33 - Jean-Philippe Lang

Fixed: deleted files should not be shown when browsing a Darcs repository (#2385).

History

#1 - 2008-12-23 01:17 - Timo Hübel

Just a note: Perhaps it is even easier retrieving the list of controlled files using "darcs show files"

#2 - 2008-12-27 19:33 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8.1

- Resolution set to Fixed

That's fixed in r2189. Thanks for pointing this out.

> Perhaps it is even easier retrieving the list of controlled files using "darcs show files"

Maybe, but "darcs show files" doesn't give the patch that last modified each file.
