Category:	Calendar		**Estimated time:**	0.00 hour
Target version:	Candidate for next minor release			
Resolution:			**Affected version:**	

Description

Summary

The right side of the tooltip is cut off at the Calendar View.

Description

In normal mode, the right side of the issue's tooltip is clipped.
The contents of the tooltip are hidden under the sidebar.

In responsive mode, not only the right side of the issue but also the issues on Friday are the same.

Environment

```
Environment:
  Redmine version              4.1.1.stable.19819
  Ruby version                 2.5.3-p105 (2018-10-18) [x86_64-darwin18]
  Rails version                5.2.4.2
  Environment                  development
  Database adapter             SQLite
  Mailer queue                 ActiveJob::QueueAdapters::AsyncAdapter
```

The trunk is the same situation.

Visual Proof / Screenshot

sample-capture.png

Expected Results

The tooltip is displayed without cutting off.

Actual Results

Cut off because of the content's overflow.

Workaround

Modify the application.css and responsive.css

application.css

```
Index: public/stylesheets/application.css
===================================================================
--- public/stylesheets/application.css    (revision 19834)
+++ public/stylesheets/application.css    (working copy)
@@ -109,6 +109,7 @@
 #content { flex-grow: 1; background-color: #fff; margin: 0px; padding: 6px 10px 10px 10px; overfl
ow-x: auto;}
```

```
 html>body #content { min-height: 600px; }
 * html body #content { height: 600px; } /* IE */
+html>body.controller-calendars.action-show #content { overflow-x: visible; }

 #main.nosidebar #sidebar{ display: none; }
```

I'm not sure if the changing of **overflow-x** has some unexpected effects, so I specify more specific conditions.
(Calendar view only)

responsive.css

```
Index: public/stylesheets/responsive.css
===================================================================
--- public/stylesheets/responsive.css    (revision 19834)
+++ public/stylesheets/responsive.css    (working copy)
