- Related to Feature #9714: Custom 'were/was' condition for assignee issuelist filter added

#4 - 2023-05-08 15:20 - Go MAEDA

- Related to Feature #38527: New issues filter operators "has been", "has never been", and "changed from" added

#5 - 2023-05-11 09:34 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

You can do this by using "changed from" or "has been" operators implemented in #38527.

- [Status][changed from][value]: selects issues where the status was the given value at some point in the past
- [Status][has been][value]: selects issues where the status was the given value at some point in the past or is currently the given value
