Redmine - Feature #3141

User can choose the events for email notifications

Description

I suggest to add the chance for a user to decide the different kinds of events he wants to be notified of.
For example a user could be notified only of issue openings and not all the updates (a customer, for example)

+1

Yes this would be a nice feature! Perhaps also a timeout could be implemented where Notifications are summarized into 1 email, so you don't get an email every minute!

#4 - 2011-03-23 10:52 - Toshi MARUYAMA

- Category set to Email notifications

Please don't. And if you do, make this optional.
