

Redmine - Patch #691

Add column totals to Issus Summary Report

2008-02-19 01:07 - David Petersen

Status:	New	Start date:	2008-02-19
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	Candidate for next major release		
Description			
The Issue Summary Reports (simple and detailed) has row totals but does not have column totals. Both row and column totals are needed to be able to pull all the information that is needed.			
Patch file adds the column totals.

History

#1 - 2008-03-13 16:14 - John Goerzen

I'm wondering if this is really all that useful on the issue_report (main issue summary) screen. It's duplicated in every box there, and doesn't really seem all that useful to have it in every box.

What do you think?

#2 - 2008-03-13 22:12 - David Petersen

The reason I created the patch is because we had a few people in upper management that wanted that detail of info.

#3 - 2016-12-25 09:14 - Go MAEDA

- File *column_totals_reports_r16111.diff* added

- Target version set to Candidate for next major release

Updated David Petersen's patch for the current trunk ([r16111](#)).

Go MAEDA, do you have some specific reason to prefer this patch (which has raw text strings) over the one provided by Markus in [#2281](#)?

This patch makes a link from total values to issues page. But [#2281](#) is also good for me.

This patch makes a link from total values to issues page. But [#2281](#) is also good for me.

This "linkified" version might be more consistent with the rest of the summary. I also had a second, better look at your updated patch and noticed you have also removed the raw strings, so that 'issue' is solved; so in the end the only remaining effective difference is whether or not to linkify the total values. As I expressed in [#2281-4](#) I don't have a preference for one or the other. Btw: a look at that screenshot of mine in [#2281](#) raises some nostalgic feelings... :)

One other thing that comes to my mind is that if it is decided to merge this into the core, it would be good to review whether or not it would be better for consistency to extend this change onto the issue tracking box on overview as it is after completion of [#20413](#). Again, I don't have any preference. I'm just dropping some thoughts.

#7 - 2017-01-01 14:38 - Go MAEDA

- Target version changed from Candidate for next major release to 3.4.0

#8 - 2017-01-29 12:40 - Jean-Philippe Lang

The links to the issue list on totals are wrong in some cases. For example, under the "Target version" details, we have the total number of issues that are assigned to a version, but the link sends you to the issue list without target version filter.

#9 - 2017-03-03 18:33 - Jean-Philippe Lang

- Target version changed from 3.4.0 to Candidate for next major release
