Redmine - Defect #6754

Links broken.

2010-10-27 18:14 - Marcello Henrique

Status:	Closed	**Start date:**	2010-10-27
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Resolution:	Invalid	**Affected version:**	

Description

In project overview details and report:

wrong: http://domain.com/projects/<project_name>/timelog/(details|report)
correct: http://domain.com/projects/<project_name>/time_entries/(details|report)

In projects URL (http://domain.com/projects).

To create new project link:

wrong: http://domain.com/projects/add
correct: http://domain.com/projects/new

Overall activity:

wrong: http://domain.com/projects/activity
correct: I don't know

I'm using last version trunk (http://redmine.rubyforge.org/svn/trunk), in specific revision: 4295

All these links are OK on my instance. Can you provide informations listed in SubmittingBugs and make sure you don't have anything in your browser or proxy cache ?

Hello Jean-Baptiste,

I restarted my server, before did it:

```
rake tmp:cache:clear
rake tmp:sessions:clear
```

I'm open browser and clean cache, cookies in my first try, in second with mode private but not work.

It's very strange, see my file "app/views/projects/index.rhtml":

```
  5 <div class="contextual">
  6     <%= link_to(l(:label_project_new), {:controller => 'projects', :action => 'new'}, :class => 'icon icon
-add') + ' |' if User.current.allowed_to?(:add_project, nil, :global =    > true) %>
  7     <%= link_to(l(:label_issue_view_all), { :controller => 'issues' }) + ' |' if User.current.allowed_to?(
:view_issues, nil, :global => true) %>
  8     <%= link_to(l(:label_overall_spent_time), { :controller => 'time_entries' }) + ' |' if User.current.al
lowed_to?(:view_time_entries, nil, :global => true) %>
  9     <%= link_to l(:label_overall_activity), { :controller => 'activities', :action => 'index' }%>
 10 </div>
```

It's very clean that to add new project in line 6 this action is new, Why not work? I'm scared! :-)
My server is one Debian 5.0.6, mysql database.

Script/about:

```
# script/about
About your application's environment
Ruby version              1.8.7 (x86_64-linux)

Can you try to see if you can reproduce without all those plugins ? I suspect some of theme override views with the bad links you point out...

#4 - 2010-10-29 12:24 - Marcello Henrique

- Status changed from New to Resolved

You hit right in the bull's eyes, the problem is the plugin "projects_tree_view", (http://github.com/MischaTheEvil/projects_tree_view), I will report this bug.

Thanks!

#6 - 2010-10-29 12:33 - Felix Schäfer

- Status changed from Resolved to Closed

- Resolution set to Invalid

Closing as it is a problem with a plugin. Mischa has been quite active in the last few weeks, so it should get fixed quickly.
