Redmine - Defect #8746

RCOV configuration for redmine plugin and not showing rcov coverage of redmine_plugin patch files

2011-07-05 11:31 - surajit dey

Status:	New	**Start date:**	2011-07-05
Priority:	Normal	**Due date:**	2011-07-06
Assignee:		**% Done:**	0%
Category:	Code cleanup/refactoring	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	

Description

We're developing a plugin in which we use patch files for issue.rb, issues_controller.rb, user.rb, etc.. We've configured rcov in redmine plugin's lib/task/rcov.rake file. When we run rake rcov:all it doesn't show the patch or hook file's new method's coverage.

```
How to solve this issue plz let me know ASAP.

I've attached my rake file, see attached file.
```

History

#1 - 2011-07-13 19:07 - Etienne Massip

- Category set to Code cleanup/refactoring

#2 - 2011-08-31 08:26 - Jean-Baptiste Barth

- Priority changed from Urgent to Normal

It's not "urgent" at all, since nothing visible to a user is broken. If you are developing a plugin, I assume you have some ruby skills, have you tried to find out why it doesn't work ? Does your rake file fixes this, or is it just an illustration for the problem ?
