

Redmine - Feature #10118

Workflow needs assignee roles allowed

2012-02-01 06:18 - Sang-jae Shin

Status:	New	Start date:	2012-02-01
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Permissions and roles	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
<p>Current workflow is made of: writer role, trakcer, current issue, new status allowed</p> <p>Additionally, I want to mix up with 'new assignee roles allowed'. For example, some role change issue status wich is allowed. When some role change assignee, only user who is in allowed assignee role can select.</p> <p>If you are in 'resolved' status, you can assign it to 'Tester' role.</p>
