

Redmine - Feature #1012

Ability to use custom fields in reports

2008-04-07 22:49 - Maxim Krušina

Status:	Closed	Start date:	2008-04-07
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:	0.7		
Resolution:	Fixed		
Description			
This will allow to create reports sorted by custom fields, which will be very helpfull. For example, we have custom field of issue with name "Billable" which we're using in all procets. When invoicing, we sort all issues by billable and not billable and ve invoice only for billable issues.

Custom fields (list and boolean) can be used as criteria in time report (#1012).

If you mean that it should be useful to sort by custom fields queries results, look at [r901](#) and [#477](#).

#2 - 2008-04-08 13:40 - Paolo Sulprizio

I'm sorry... from [r901](#) is possible to reorder custom fields, not to sort them... I think that it would very useful too!

It's already possible to use custom fields in issue list.

Maxim, could you confirm that your request is about:

- being able to use custom fields in time reports
or
- being able to sort the issue list by custom fields

#4 - 2008-04-09 10:37 - Maxim Krušina

It's this: being able to use custom fields in time reports
So I need to use my custom Field "Billable" in report (/timelog/report).
We need this for invoicing, so tickets will be sorted also by this custom field.
So if it is possible to include custom fields in Add filer, it should solve the problem.

#5 - 2008-04-09 19:53 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.7

- Resolution set to Fixed

Done in [r1340](#).

Note that only **list** and **boolean** custom fields can be used. I don't think it make sens to use the other kinds of fields (eg. string, integer...) as criteria in the time report since there can be many different values. Reopen if needed.

[Paolo Freuli](#): being able to sort the issue list by custom fields is not the original request. Feel free to report a new one.

#6 - 2008-04-10 17:07 - Maxim Krušina

Excellent! ;)
