<b>Description</b>			
<p>In our organization we are using Redmine for task management ( no software development, revision control etc) using only the "Issue tracking" module. Since almost every organization having more than 25 employees has an organizational hierarchy/structure, so have we. Since the original request was to track issues by organizational units, we replicated our hierarchy to Redmine. This means that every department is a project. For example, the CIO has three differenet departments under him like this</p> <p>Organization</p> <ul style="list-style-type: none"><li>- CIO<ul style="list-style-type: none"><li>1. Infrastructure</li><li>2. Maintenance</li><li>3. Service Desk</li></ul></li> <li>- CSO<ul style="list-style-type: none"><li>1. Dep 1</li><li>2. Dep 2</li><li>3. Dep 3</li></ul></li></ul> <p>NB! "Organization", "CSO" and "CIO" are projects also!</p> <p>Our CEO wants to click on the organization and see for example all tasks which have been assigned to a specific person without knowing what department that person is currently working in.</p> <p>At the moment I have solved this by adding every user to the "Organization" project. That way the CEO can filter all issues based on the assignee. By default only users specifically added to a project can be filtered on.</p> <p>So, to put in a more general way: it would be nice, if users from subprojects could be used as a filter in the main project view. If listing issues for the main project, all issues from the subprojects will be displayed also so I think that adding this filtering function should not be a difficult problem to solve.</p>

#### Associated revisions

##### Revision 8747 - 2012-02-01 21:07 - Jean-Philippe Lang

Adds members of subprojects in assignee and author filters (#10126).

#### History

##### #1 - 2012-02-01 21:07 - Jean-Philippe Lang

- Category set to Issues
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang

- *Target version set to 1.4.0*
- *Resolution set to Fixed*

It makes perfect sense, added in r8747.

**#2 - 2012-02-01 21:08 - Jean-Philippe Lang**

- *Subject changed from Recursive assignee filtering to Add members of subprojects in the assignee and author filters*

**#3 - 2018-09-08 08:57 - Marius BALTEANU**

- *Duplicated by Feature #2055: Assigned to list for parent project in issue filter missing users of child projects added*
