

Redmine - Defect #10135

ActionView::TemplateError (can't convert Fixnum into String)

2012-02-02 11:31 - shahul hameed

Status:	Closed	Start date:	
Priority:	Urgent	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:	1.3.2	Affected version:	1.2.3
Resolution:	Fixed		
Description			
Hi			
I have migrated my Redmine 1.0.2 to 1.2.1. Everything was good and the migrate DB generated no error or warning, For the testing purpose i ran the redmine in webrick The login page appear and I can login, but the next page got a 500.html error with the folling log.			
Please help me its urgent			
Thanks Shahul

Revision 8804 - 2012-02-06 15:44 - Jean-Philippe Lang

Fixed "can't convert Fixnum into String" error on projects with numerical identifier (#10135).

History

#1 - 2012-02-03 18:43 - Jean-Philippe Lang

- Description updated

- Resolution set to Cant reproduce

You upgraded to 1.2.1 but you report this issue against 1.2.3. So what version are you using?

#2 - 2012-02-03 18:44 - Jean-Philippe Lang

- Assignee deleted (Felix Schäfer)

And please, don't assign issues.

#3 - 2012-02-05 14:57 - shahul hameed

sorry, i have upgraded my redmine from 1.0.2 to 1.2.3

#4 - 2012-02-06 14:51 - Bernhard Baumgartl

Hi i have the same issue.

I upgraded from 1.0.1 to 1.1.3.

I found out that all project related templating e.g. "link_to_project", "render_project_jump_box", ..., is not working.

Is that maybe an ruby package with an false version?

My installed packages are:

```
actionmailer (3.2.1, 2.3.11)
actionpack (3.2.1, 2.3.11)
activemodel (3.2.1)
activerecord (3.2.1, 2.3.11)
activeresource (3.2.1, 2.3.11)
activesupport (3.2.1, 2.3.11)
acts-as-taggable-on (2.1.1)
arel (3.0.0)
builder (3.0.0)
bundler (1.0.21)
daemon_controller (0.2.5)
erubis (2.7.0)
fastthread (1.0.7)
file-tail (1.0.5)
hike (1.2.1)
i18n (0.6.0)
journey (1.0.1)
json (1.6.5)
mail (2.4.1)
mime-types (1.17.2)
multi_json (1.0.4)
oniguruma (1.1.0)
passenger (3.0.2)
plist (3.1.0)
polyglot (0.3.3)
rack (1.4.1, 1.2.1, 1.1.3)
rack-cache (1.1)
rack-ssl (1.3.2)
rack-test (0.6.1)
rails (2.3.11)
railties (3.2.1)
rake (0.8.7)
rdoc (3.12)
sprockets (2.1.2)
spruz (0.2.2)
textpow (0.10.1)
thor (0.14.6)
treetop (1.4.10)
tzinfo (0.3.31)
```

Thx for the help.

- Target version set to 1.3.2
- Resolution changed from Cant reproduce to Fixed

OK, found. You must have at least one project with a legacy numerical identifier (which is no longer valid). The fix is committed in [r8804](#), but it can be easily applied locally:

```
Index: app/models/project.rb
=====
--- app/models/project.rb      (revision 8776)
+++ app/models/project.rb      (working copy)
@@ -274,7 +274,7 @@
 
     def to_param
       # id is used for projects with a numeric identifier (compatibility)
-      @to_param ||= (identifier.to_s =~ %r{^\d*$} ? id : identifier)
+      @to_param ||= (identifier.to_s =~ %r{^\d*$} ? id.to_s : identifier)
     end

     def active?
```

This patch is against current trunk but you should be able to locate this piece of code in 1.1.3 or 1.2.3. Alternatively, you can change your project identifier(s) to non-numerical ones.

#6 - 2012-02-06 16:01 - Bernhard Baumgartl

Hi thx for the fix,

i found the problem by my self and added before all numeric identifiers a letter. ;)

But i spent 4 hours to found it. xD

#7 - 2012-02-06 19:26 - shahul hameed

thank u so much Jean-Philippe Lang, the issue has been fixed and its works for me

Thanks
Shahul

#8 - 2012-03-05 13:46 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged. Thanks for the feedback.
