Target version:				
Resolution:	Invalid		**Affected version:**	1.3.1

Description

FreeBSD have only one port of RubyGems - devel/ruby-gems. Its current version is 1.8.11 (ruby18-gems-1.8.11).
Redmine in ports is last release - 1.3.1, but it will not work with RubyGems 1.8.x.
I know that there are plans to make default Ruby 1.9 in FreeBSD ports. 1.3.1 don't support Ruby 1.9 too.
And I know that current development version of Redmine ("trunk") supports both RubyGems 1.8.x and Ruby 1.9.
New Java SDK for Web-Api supports only Redmine 1.3.x. We are developing integration Redmine with our internal system now and want to use new Web-Api.

May be you can make release 1.3.2 with RubyGems 1.8.x support?

Thanks!

History

#1 - 2012-07-23 01:41 - VVD VVD

- Status changed from New to Resolved

Not actual any more - installed 2.0.3 not from ports and with ruby 1.9.3 from ports + ruby gems 1.8.24 from ports too.
But have troubles with running old plugins:

- timesheet_plugin
- bulk_time_entry_plugin
- redmine_attach_screenshot
- redmine_blocks
- redmine_jchat
- redmine_polls

- Status changed from Resolved to Closed

- Resolution set to Invalid

> May be you can make release 1.3.2 with RubyGems 1.8.x support?

Sorry but 1.3.x is not supported any more.

#3 - 2012-07-23 09:31 - VVD VVD

As I already said "Not actual any more - installed 2.0.3".
Want to migrate from 1.2.1 to 2.0.3 and have troubles with run all 6 plugins...
But I think this have to be other issue.
