

Redmine - Defect #10243

How to delete project in Redmine 1.3.1

2012-02-15 13:41 - Dariusz Kowalski

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	1.3.1
Resolution:	Cant reproduce		
Description			
I've install redmine 1.3.1 on Debian. On the admin page of projects I have link do delete project, but it link to overview page of project instead of the Deletion project page. This is bug?			

History

Hi, although all javascripts are enabled, the link for delete is :

<http://redmine.XXXXXX.net/projects/XXPROJECTIDXXX>

I expected something like:

<http://redmine.XXXXXX.net/projects/XXPROJECTIDXXX/delete>

but it doesn't work

I found, it works with

<http://redmine.XXXXXX.net/projects/XXPROJECTIDXXX/destroy>

but the action is not available in the link under

<http://redmine.XXXXXX.net/admin/projects>

Best Regards

Cristiano
