Redmine - Patch #1028

Clean up timelog code

2008-04-09 21:54 - Rocco Stanzione

Target version:				

Description

This doesn't have any effect on functionality, but "criteria" is the plural of "criterion", so there's no such word as "criterias". This makes the code difficult to read/work with for a (pedantic) native English speaker. Cleans up the timelog helper, views, controller and functional tests. Tests pass.

Well, I think this one could be closed. As I see for now, there is nothing like criterias or something similar. The patched method is completly rewritten, as I could see.

@ Toshi: If you have no reason against it, this could be set to closed. :-)

#3 - 2013-01-06 11:28 - Jean-Philippe Lang

- Status changed from New to Closed

Indeed, the patch is obsolete. The proposed change (criterias => criteria) was part of r8026.
