Target version:	
Resolution:	
Description	
<p>Currently the subject change message has no punctuation nor different font or styling. I think this makes it hard to parse at a quick glance.</p> <p>Changing it slightly to something like: Subject changed from 'this is a bug' to 'this is a really bad bug!'</p> <p>I don't find the formatting of other change notices to be as problematic most likely since the before and after values are typically short and fit into a normal sentence structure. e.g. Assignee changed from Bob McKenzie to Doug McKenzie</p>
