History

#1 - 2012-04-06 09:01 - fangzheng ()

Empty attachment is considered as invalid file in some other bug tracking system.
Maybe redmine has a similar thought?

#2 - 2014-01-10 19:48 - Michael Esemplare

Affects current versions also (2.4)

While an empty file is not attached, it is still being databased.
