

Redmine - Defect #10336

SQL error on "Group By clause" with Postgresql and JRuby

2012-02-28 16:01 - Julien Brunet

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Ruby support	Estimated time:	0.00 hour
Target version:		Affected version:	1.3.1
Resolution:	Wont fix		
Description			
Hello,			
I have a SQL error about each Project's Page , which is a little bit boring...			
Redmine version is 1.3.1 on Windows XP with jruby 1.6.7			
Database is POSTGRESQL 8.4.11			
see screenshot to get more informations.

History

#1 - 2012-02-28 18:49 - Jean-Philippe Lang

- Subject changed from SQL error on "Group By clause" with POSTGRESQL 8.4.11 - updated to SQL error on "Group By clause" with Postgresql and JRuby
- Category changed from Database to Ruby support
- Priority changed from High to Normal

Redmine just doesn't work with JRuby+PostgreSQL.
Use one of the ruby interpereters that is currently supported.

#2 - 2012-03-01 15:15 - Jean-Philippe Lang

- Resolution set to Wont fix

All tests in current trunk pass with jruby and mysql or sqlite3, but I get many odd errors with postgresql (tested with postgresql 9.1). There must be something wrong with the postgres jdbc adapter.

#3 - 2012-03-26 14:04 - M T

It's taken me a couple of solid days debugging and unravelling the postgres jdbc adapter, but I have just about got to the bottom of the problems it seems to have. I've got virtually all the redmine unit tests passing now, with the exception of a very small number of 'group by' queries. I'm hoping those won't be too hard to crack now.

#4 - 2012-03-26 14:43 - M T

OK I think I have fixed this "group by" problem too. For anyone wanting to try this out, replace

jruby-1.6.7\lib\ruby\gems\1.8\gems\activerecord-jdbc-adapter-1.2.2\lib\arjdbc\postgresql\adapter.rb

with the amended version I have uploaded to the jira bug report:

http://kenai.com/jira/browse/ACTIVERECORD_JDBC-162

JPL: I assume you will want to wait until an official fix comes out from the activerecord-jdbc guys, but you might consider making a note about this somewhere in the wiki?

#5 - 2018-10-09 15:05 - Marius BĂLTEANU

- Status changed from New to Closed
