

Redmine - Feature #1069

"Help" link should launch new page.

| Description | | | |
| <p>The help link in the top menu should launch in a new page. As it currently works if a user clicks this link they are taken to redmine.org. If they then navigate around to find their solution they will have to hit the back button numerous times before they are returned to their project page. I was trying to look into this and provide a patch but do not know ruby at all. I will keep looking into and post said patch if I figure it out. BTW - Great software.</p> | | | |

- File `help_menu_in_new_window.txt` added

I'm not sure if this the rightway to do it. But this patch works for me.

#2 - 2008-04-24 23:58 - Jon Morrow

Will take a look at this later today! Thanks!!!

#3 - 2008-04-25 00:09 - Jon Morrow

Me like thanks!
