Description

See [#7603](#7603)

This feature implementation ended in a situation where the "more" links has gone and properties are always visible when you click "Update" of any issue.
BUT there is now no way to change the original description of the ticket.
Before 1.4.0 the more link showed all properties including description. This is now gone

Sorry
too many clicks and so hidden
after update every user ask about this

- Status changed from Reopened to Closed

I'm closing it because there's no regression. The description can be updated.
