#### Description

I am facing an issue while creating a Repository for a Project in Redmine 1.4-stable branch:

I get the following error in my log/production.log

```
Rendering /var/redmine/public/500.html (500 Internal Server Error)
```

```
Processing RepositoriesController#create (for 117.201.161.229 at 2012-04-19 00:58:17) [POST]
```

```
Parameters: {"controller"=>"repositories", "commit"=>"Create", "repository_scm"=>"Git",

Rendering /var/redmine/public/500.html (500 Internal Server Error)

## History

---

### #1 - 2012-04-19 11:52 - Jean-Philippe Lang

- *Resolution set to Cant reproduce*

Please try without plugins.

### #2 - 2012-04-26 16:55 - Raphael Kallensee

I'm pretty sure the problem is the redmine\_checkout plugin (I ran into the same issue) - the current version 0.5 is not compatible with Redmine 1.4. However there's a fix from Github user "tonybarbieri" - I merged it with another Ruby 1.9.3 fix. You can find instructions on how to upgrade over at [Stackoverflow](#).

### #3 - 2016-01-17 02:32 - Go MAEDA

- *Status changed from New to Closed*  
- *Priority changed from High to Normal*

No feedback for years. Closing.
