Description

Hi,

This patch enables adding completed ratio to issues via commit messages, the syntax is like

ref #12345 @1h20m 50%

Patch modifies only app/models/changeset.rb

History

#1 - 2012-04-25 12:53 - Mischa The Evil

This was once part of the patches provided for issue #1518, but it didn't got implemented through issue #4155. See #4155#note-20.

#2 - 2012-04-25 15:51 - Angelo Compagnucci

Why it was not included? Note 20 (#4155#note-20) of issue #4155 really doesn't explain why it was rejected.
I've not read all the patches for bug #1518 nor #4155, but trunk lacks this feature, extremely usefull imho.

This patch maintains original syntax, add solely the optinale notation d{1,2}% to set ratio via commit message.

I really hope this could be included, otherwise I shall have to maintain my personal redmine fork!

Thank you!

#3 - 2012-05-09 15:36 - Angelo Compagnucci

Hi guys, any update on patch integration? Have I any hope?

Thanks!

#4 - 2012-06-04 20:19 - Bruno Medeiros

I believe that you need to provide a SVN patch if you really want to see it integrated.
