Any plugin that adds a custom column to the issue list?

About your Redmine plugins

Redmine Backlogs v0.9.3

Redmine Wiki HTML Util 0.0.1

#4 - 2012-05-02 22:56 - Fri Flaj

The Backlogs plugin adds custom columns. What can we do to fix this?

#5 - 2012-05-02 23:07 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

It looks like the encoding of the column names is not set to utf8.

You should contact the plugin author to see if a ruby1.9 compatible version of the plugin is available.

#6 - 2012-05-02 23:11 - Fri Flaj

Ah, so this is ruby 1.9 specific? Our plugin has not yet passed tests on 1.9. Odd though, because our translations are all utf-8 or us-ascii.

#7 - 2012-05-02 23:23 - Jean-Philippe Lang

This error is ruby1.9 specific indeed. Strings are not encoding aware in ruby1.8.
