

Redmine - Feature #10861

Processing incoming e-mails from anonymus users

2012-05-09 13:00 - Andrea Saccavini

Status: Closed	Start date:

Category: Email receiving	Estimated time: 0.00 hour
Target version:	
Resolution: Duplicate	
Description It is necessary to put the "from" address of an incoming e-mail processed by redmine in a custom filed when the option "unknown_user=" is not set to "create" but is set to "accept". It is not possible to allow the creation of new accounts automatically due to a risk of DoS in case of SPAM! This feature will make possible to have informations about the sender e-mail address in the issue. Thanks
