

Redmine - Feature #10989

Prevent parent issue from being closed if a child issue is open

2012-05-22 10:46 - ravi jain

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	3.4.0		
Resolution:	Fixed		
Description			
I am able to close a parent issue while its Child issues are yet not closed/rejected, ideally it should not let a use to close a Parent issue, until all it's child issues are not closed.

Revision 16108 - 2016-12-21 10:09 - Jean-Philippe Lang

Prevent parent issue from being closed if a child issue is open (#10989).

History

#1 - 2012-05-25 19:18 - Jean-Philippe Lang

- Tracker changed from Defect to Feature
- Subject changed from Parent issue can be closed, while it's child issues are still open to Prevent parent issue from being closed, while it's child issues are still open
- Assignee deleted (Azamat Hackimov)
- Priority changed from High to Normal

#2 - 2014-10-28 04:29 - Toshi MARUYAMA

- Has duplicate Feature #12956: Warning "parent issue is closed" added

#3 - 2014-10-28 04:31 - Toshi MARUYAMA

- Has duplicate Feature #18212: The status of parent issue could be changed to closed before all of the sub issues' status are changed to closed added

#4 - 2015-04-16 08:28 - Ami Desai

+1

#5 - 2016-08-26 02:11 - Go MAEDA

I think the behavior is logical and this feature is really needed.

[#18212](#) has a patch.

#6 - 2016-08-31 00:55 - Marius BĂLTEANU

This means also that we shouldn't be able to add to a new/open issue a parent which is already closed?

#7 - 2016-09-20 10:20 - Marius BĂLTEANU

- *File cant_close_before_sub_issues_closed.patch added*

I made a patch (inspired from [#18212](#)) with tests that implements this feature request.

@Go MAEDA, I still think that in order to implement this completely, we should not allow to set for a new/open issue a parent which is already closed. I'm waiting for your feedback (or other Redmine contributors) in order to include also this change in the patch.

LGTM.

I have some questions.

What happens if opened child issues which user cannot see (private/visibility)?

```
error_can_not_close_issue_with_open_subtasks: "An issue with open subtasks cannot be closed"
```

Would it better "An issue" -> "The issue"?

@Go MAEDA, I still think that in order to implement this completely, we should not allow to set for a new/open issue a parent which is already closed. I'm waiting for your feedback (or other Redmine contributors) in order to include also this change in the patch.

I think this would better in separate issue.

The user will receive the same error message and I think that is the correct behavior because any open subtask means work to do (from my point of view).

If you have the following scenario:

- Issue with 4 subtasks
- Two are visible to my role
- Other two are visible to another role.

Closing my subtasks doesn't means that the parent issue can be closed, it means only that I made my piece of work. If you think that it'll be confusing for the users, we can improve the error message.

Would it better "An issue" -> "The issue"?

I took some internal feedback and the new proposal is "You cannot close an issue with open subtasks.". Let me know what do you think in order to update the patch.

@Go MAEDA, I still think that in order to implement this completely, we should not allow to set for a new/open issue a parent which is already closed. I'm waiting for your feedback (or other Redmine contributors) in order to include also this change in the patch.

I think this would better in separate issue.

Agree, I'll open a new issue.

Please update the patch.

#16 - 2016-10-20 14:53 - Marius BĂLTEANU

- *File cant_close_before_sub_issues_closed_v2.patch added*

Here it is.

#17 - 2016-11-16 13:15 - Toshi MARUYAMA

- *Target version changed from Candidate for next major release to 3.4.0*

#18 - 2016-12-16 10:13 - Marius BĂLTEANU

- *File cant_close_before_sub_issues_closed_v3.patch added*

Fixed the expected error message in the test.

#19 - 2016-12-21 10:13 - Jean-Philippe Lang

- *Subject changed from Prevent parent issue from being closed, while it's child issues are still open to Prevent parent issue from being closed if a child issue is open*

- *Status changed from New to Closed*

- *Assignee set to Jean-Philippe Lang*

- *Resolution set to Fixed*

Added in [r16108](#). It prevents a parent task with open subtasks from being closed and a subtask of a closed issue from being reopened (in the same way as blocked issues were currently handled). It also prevents an open issue to be set as a subtask of a closed parent issue.

#20 - 2016-12-21 10:16 - Jean-Philippe Lang

I took some internal feedback and the new proposal is "You cannot close an issue with open subtasks."

I chose to use "An open issue cannot be attached to a closed parent task" to be consistent with other validation messages (eg. "An issue cannot be linked to one of its subtasks").

#21 - 2016-12-21 10:42 - Marius BĂLTEANU

Thanks for implementing this. The new error message is fine for me.

#22 - 2018-01-13 01:53 - Go MAEDA

- *Related to Defect #27974: Issue-state can't set to done if state of one subissue is not set to done added*
