#2 - 2012-05-24 09:11 - Etienne Massip

- Assignee deleted (Jean-Philippe Lang)

- Resolution set to Cant reproduce

Can't reproduce on trunk / PostgreSQL + MRI 1.9.3.

Make me think of [#8416](#).

#3 - 2012-05-24 09:13 - Etienne Massip

Could very well be related to the use of IIS.

#4 - 2012-05-24 18:27 - Anonymous

[#8416](#) is the issue with single quotes but not the microsoft quotes

#5 - 2012-05-24 18:45 - Etienne Massip

Could you please check your Redmine and IIS logs?

Are you using the mysql2 adapter?

#8 - 2012-05-24 19:45 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution changed from Cant reproduce to Invalid

Oh, I can see that you're not using mysql2 in the info you provided.
Please change your database adapter to mysql2 (instead of mysql) in your config/database.yml.

#9 - 2012-05-24 19:49 - Anonymous

Yes I have mysql2 in my yml file. I have production and development adapter as mysql2

#10 - 2012-05-24 19:52 - Anonymous

- Status changed from Closed to Reopened

#11 - 2012-05-24 19:53 - Anonymous

It is showing the same error in the redmine log file though I have mysql2 in the database adapter

#12 - 2012-05-24 20:03 - Anonymous

Is there anything to do with libMySQL.dll in C:\Ruby19\bin?

#13 - 2012-05-24 20:05 - Anonymous

In the Gem list it is showing both mysql and mysql2
