Redmine - Defect #11024

redmine_plugin_model generator does not create the migration

2012-05-25 10:13 - Giovanni D

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Plugin API		**Estimated time:**	0.00 hour
Target version:	2.0.1			
Resolution:	Fixed		**Affected version:**	2.0.0

Description

On Redmine 2.0.0, by following the tutorial on creating a new plugin (Plugin_Tutorial), the following command:

```
ruby script/generate redmine_plugin_model polls poll question:string yes:integer no:integer
```

which actually I launched as:

```
./script/rails generate redmine_plugin_model polls poll question:string yes:integer no:integer
```

does not generate the migration files, but it generates only these two files:

```
create  plugins/polls/app/models/poll.rb
create  plugins/polls/test/unit/poll_test.rb
```
