

Redmine - Defect #1108

E-mail notification address in Administration works bad if has a '+' sign

2008-04-25 18:49 - Leandro Lucarella

Status:	Closed	Start date:	2008-04-25
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

[GMail](#) and other mail server let you have multiple virtual e-mail addresses, using a +something suffix. For example, all [example@gmail.com](#), [example+something@gmail.com](#) and [example+otherthing@gmail.com](#) are delivered to [example@gmail.com](#).

The problem is, when using an address with '+' sign on it as the From: address for e-mail notifications, the address is broken, and instead of, for exmaple, setting the From: to [example+something@gmail.com](#), [something@gmail.com](#) is used.

History

#1 - 2008-04-26 16:44 - Thomas Lecavelier

Could you check again: I'm using redmine [r1350](#), and checking with gmail I have correctly [mymail+redmine@gmail.com](#), but gmail show it as [mymail@gmail.com](#) (see the "display original" in gmail, line starting with Delivered To:)

#2 - 2008-04-30 14:02 - Jean-Philippe Lang

I can't reproduce. The email address is not broken when used as the From email address.

Here is the raw email that is generated. You can see the From address is [example+something@gmail.com](#):

```
From: example+something@gmail.com
Bcc: jsmith@foo.bar
Subject: Redmine test
Mime-Version: 1.0
Content-Type: multipart/alternative; boundary=mimepart_48185f4af03c0_cac2416458110
10
X-Mailer: Redmine
X-Redmine-Site: Redmine
X-Redmine-Host: www.redmine.org

--mimepart_48185f4af03c0_cac2416458110
Content-Type: text/plain; charset=utf-8
Content-Transfer-Encoding: Quoted-printable
```

[...]

In your case, how do you see that [something@gmail.com](#) is used rather than [example+something@gmail.com](#) ? You can run redmine with development environment and check the raw email dump that you will find in the log.

#3 - 2008-04-30 19:29 - Leandro Lucarella

- Status changed from New to Resolved

Well, I tested it again and it seems to work. It probably was a MUA problem.

I'm sorry about the noise :S

#4 - 2008-04-30 21:22 - Jean-Philippe Lang

- Status changed from Resolved to Closed

- Affected version (unused) deleted (0.7.0-RC1)

- Resolution set to Invalid

Thanks for the feedback.
