History

#1 - 2012-06-03 13:50 - John Yani

BTW, it should be

```
gem 'rails', '~> 3.2.5'
```

#2 - 2012-06-03 14:34 - Jean-Philippe Lang

- Tracker changed from Defect to Feature

- Target version set to 2.0.2

There are failures/errors with Rails 3.2.5, I'm working on it. But we can't just upgrade the Gemfile.

I've also filled a bug for something that looks like a regression: <https://github.com/rails/rails/issues/6609>

#3 - 2012-06-03 21:31 - Jean-Philippe Lang

- Category set to Rails support

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

- Resolution set to Fixed

2.0-stable upgraded to Rails 3.2.5.
