System Info

1. RAILS_ENV=production ruby script/about
   /usr/local/rvm/gems/ruby-1.9.3-p194/gems/activesupport-2.3.14/lib/active_support/inflector.rb:3:in `<top (required)>': iconv will
   be deprecated in the future, use String#encode instead.
   NOTE: Gem.source_index is deprecated, use Specification. It will be removed on or after 2011-11-01.
   Gem.source_index called from /usr/local/rvm/gems/ruby-1.9.3-p194/gems/rails-2.3.14/lib/rails/gem_dependency.rb:21.
   About your application's environment
   Ruby version   1.9.3 (x86_64-linux)

Traceability Matrix   2.0
Redmine Wiki HTML Util   0.0.1

History

#1 - 2012-06-06 01:40 - Etienne Massip

- Status changed from New to Closed

- Priority changed from High to Normal

- Resolution set to Invalid

You're looking to the 2.x version of the [RedmineUpgrade](#) guide.

Follow the link at the start of the page for upgrading to a 1.x version, the rake task was previously named db:migrate_plugins instead of db:plugins:migrate.

#2 - 2012-06-06 01:56 - Robson Peixoto

Please, add it on RedmineUpgrade guide

#3 - 2012-06-06 13:13 - Arjen Schol

Well, I run redmine-2, and db:plugins:migrate doens't do anything. After running the previous db:migrate_plugins, I received a hint for the new syntax:

Note: The rake task db:migrate_plugins has been deprecated, please use the replacement version redmine:plugins:migrate

So it's not db:plugins:migrate but redmine:plugins:migrate

#4 - 2012-06-06 14:38 - Etienne Massip

Robson Peixoto wrote:

It is already, the first statement in the wiki page is referring to the version you should use. I tried to make it more obvious.

Arjen Schol wrote:

Indeed, fixed.
