<b>Description</b>			
It would be nice to get something like this as log entry caught: "Merged branch (user/#123-fix-the-damn-thing)"			
Right now i can put "" into "Referencing keywords" to get refs when i use issue-id in the commit log, but the issue id has to stand alone.			
E.g. regexp: "Merged branch \(.*\V\$1-.*\)" might be nice.			
Sorry if syntax might be not 100% correct.
