

Redmine - Defect #11275

Large file download

2012-06-27 13:44 - Anton Gillert

Status:	Closed	Start date:																																																																																																																																					
Priority:	Normal	Due date:																																																																																																																																					
Assignee:		% Done:	0%																																																																																																																																				
Category:	Attachments	Estimated time:	0.00 hour																																																																																																																																				
Target version:		Affected version:	2.0.2																																																																																																																																				
Resolution:	Duplicate																																																																																																																																						
Description																																																																																																																																							
<p>I've used Redmines file tab to store VM images. I've encountered long loading time (firefox tends to cancel the connection, resulting in failed upload, chrome is ok) and massive CPU utilization of the ruby process after the file is uploaded.</p> <p>Anyway after uploading the image size ca 3.1GB i've tried to download it. Besides getting no indication, apache starts to hog all available memory:</p> <pre>Tasks: 323 total, 2 running, 321 sleeping, 0 stopped, 0 zombie Cpu(s): 0.5%us, 1.4%sy, 0.0%ni, 59.4%id, 38.3%wa, 0.2%hi, 0.1%si, 0.0%st Mem: 8194076k total, 8148524k used, 45552k free, 1776k buffers Swap: 10432504k total, 7507280k used, 2925224k free, 39796k cached</pre> <table border="1"><thead><tr><th>PID</th><th>USER</th><th>PR</th><th>NI</th><th>VIRT</th><th>RES</th><th>SHR</th><th>S</th><th>%CPU</th><th>%MEM</th><th>TIME+</th><th>COMMAND</th></tr></thead><tbody><tr><td>32313</td><td>www-data</td><td>20</td><td>0</td><td>247m</td><td>110m</td><td>516</td><td>D</td><td>6</td><td>1.4</td><td>1:41.08</td><td>ruby1.8</td></tr><tr><td>32273</td><td>www-data</td><td>20</td><td>0</td><td>20.6g</td><td>7.0g</td><td>464</td><td>S</td><td>4</td><td>90.0</td><td>0:48.87</td><td>apache2</td></tr><tr><td>116</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>D</td><td>2</td><td>0.0</td><td>2:06.45</td><td>kswapd0</td></tr><tr><td>391</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>S</td><td>1</td><td>0.0</td><td>2:06.29</td><td>kdmflush</td></tr><tr><td>1154</td><td>root</td><td>20</td><td>0</td><td>363m</td><td>33m</td><td>1668</td><td>D</td><td>1</td><td>0.4</td><td>48:24.54</td><td>Xorg</td></tr><tr><td>7</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>S</td><td>0</td><td>0.0</td><td>0:04.19</td><td>ksoftirqd/1</td></tr><tr><td>10</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>S</td><td>0</td><td>0.0</td><td>0:46.10</td><td>ksoftirqd/2</td></tr><tr><td>73</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>R</td><td>0</td><td>0.0</td><td>0:32.09</td><td>kblockd/2</td></tr><tr><td>884</td><td>root</td><td>20</td><td>0</td><td>0</td><td>0</td><td>0</td><td>S</td><td>0</td><td>0.0</td><td>3:24.54</td><td>flush-252:0</td></tr><tr><td>1097</td><td>jenkins</td><td>20</td><td>0</td><td>2648m</td><td>94m</td><td>1624</td><td>S</td><td>0</td><td>1.2</td><td>251:13.90</td><td>java</td></tr></tbody></table> <p>I haven't managed to be patient enough (>10min) to wait for the "save file to" dialog, but never the less i think this is a problem. Anything I can do about it?</p> <p>Here is my redmine information foo:</p> <pre>Redmine 2.0.2.stable Default administrator account changed Attachments directory writable Plugin assets directory writable RMagick available (optional) Environment: Redmine version 2.0.2.stable Ruby version 1.8.7 (x86_64-linux) Rails version 3.2.5 Environment production Database adapter MySQL Redmine plugins: redmine_mylyn_connector 2.8.1.stable</pre>				PID	USER	PR	NI	VIRT	RES	SHR	S	%CPU	%MEM	TIME+	COMMAND	32313	www-data	20	0	247m	110m	516	D	6	1.4	1:41.08	ruby1.8	32273	www-data	20	0	20.6g	7.0g	464	S	4	90.0	0:48.87	apache2	116	root	20	0	0	0	0	D	2	0.0	2:06.45	kswapd0	391	root	20	0	0	0	0	S	1	0.0	2:06.29	kdmflush	1154	root	20	0	363m	33m	1668	D	1	0.4	48:24.54	Xorg	7	root	20	0	0	0	0	S	0	0.0	0:04.19	ksoftirqd/1	10	root	20	0	0	0	0	S	0	0.0	0:46.10	ksoftirqd/2	73	root	20	0	0	0	0	R	0	0.0	0:32.09	kblockd/2	884	root	20	0	0	0	0	S	0	0.0	3:24.54	flush-252:0	1097	jenkins	20	0	2648m	94m	1624	S	0	1.2	251:13.90	java
