Target version:	Affected version:
Resolution: Invalid	

Description

Hi,

I have installed and populated my redmine database with pacakge into squeeze debian version.

```
dpkg -l |grep redmine
ii redmine          1.0.1-2          flexible project management web application
ii redmine-mysql   1.0.1-2          metapackage providing MySQL dependencies for Redmine
```

Now I wan't to migration to 2.0 redmine version I have followed this docuementation for upgrade :
<http://www.redmine.org/projects/redmine/wiki/RedmineUpgrade>

The database migration don't work with following trace:
<http://pastebin.com/A0LFJ4Wt>

could you help me on this bug

- Status changed from New to Closed

- Resolution set to Invalid

There is no such "migration" environment.

#2 - 2012-07-05 16:43 - Lanfeust troy

- Status changed from Closed to Reopened

still same with test env

What does your config/database.yml look like?

#4 - 2012-07-06 09:50 - Lanfeust troy

database.yml : <http://pastebin.com/0ejYFuky>

#5 - 2012-07-09 08:58 - Etienne Massip

It looks fine but why are you running your migration on test, this environment is pretty much useful only to developers?

Did you run bundle install with according group test then?
