<b>Description</b>			
<p>Clicking on the "Unified diff" link at the bottom of a diff page of a specific file for a specific revision doesn't work anymore.</p> <p>For a SVN revision, it simply produces a 404 error page.</p> <p>The unified diff link is badly formatted; instead of adding a format query parameter, it seems that source:/tags/2.0.3/lib/redmine/views/other_formats_builder.rb#L26 format value is now appended at the end of the URI like a file extension.</p>
