

Redmine - Defect #11389

Warning in awesome_nested_set.rb

2012-07-13 16:42 - Jean-Sébastien Pédrón

Status:	Closed	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	2.1.0	Affected version:	2.0.3
Resolution:	Fixed		
Description			
We have the following warning:			
<pre>DEPRECATION WARNING: The InstanceMethods module inside ActiveSupport::Concern will be no longer included automatically. Please define instance methods directly in CollectiveIdea::Acts::NestedSet::Model instead. (called from include at /var/lib/redmine/lib/plugins/awesome_nested_set/lib/awesome_nested_set/awesome_nested_set.rb:58)</pre>			
It doesn't do any harm on our side, but it seems related to issue #11072 .			
Anyway, to fix it, I followed what I found in the following answer on Stackoverflow and it did work: http://stackoverflow.com/a/8684885 (eg. removing the "module InstanceMethods" declaration and the corresponding "end").			
Usual informations:			
<ul style="list-style-type: none">• Redmine 2.0.3 from SVN r9959 (branches/2.0-stable)• Ruby 1.8.7• Rails 3.2.6• Debian Squeeze
