Redmine core does not have "recommended_below_threshold".
Please contact plugin author.

You have broken something in this patch, and plugin stopped working.
Author drunk somewhere. Write API docs, how to convert this to new.

Or just help convert

```
class StuffToDoMailer < Mailer
  def recommended_below_threshold(user, number_of_next_items)

    recipients Setting.plugin_stuff_to_do_plugin['email_to'].split(',')

    subject "What's Recommended is below the threshold"

    body (
```

```
:threshold => Setting.plugin_stuff_to_do_plugin['threshold'],
:count => number_of_next_items,
:user => user
)
```

```
part :content_type => "text/plain", :body => render_message("recommended_below_threshold.erb", body)
part :content_type => "text/html", :body => render_message("recommended_below_threshold.text.html.erb", body)
end
end
```

Anybody help port this shit to new rails :)

```
class StuffToDoMailer < Mailer
```

```
  layout = 'recommended_below_threshold'
```

```
  def recommended_below_threshold(user, number_of_next_items)
```

```
    mail(:to => Setting.plugin_stuff_to_do_plugin['email_to'],
        :subject => "What's Recommended is below the threshold",
        :threshold => Setting.plugin_stuff_to_do_plugin['threshold'],
        :count => number_of_next_items,
        :user => user) do |format|
      format.html
      format.text
    end
```

```
  end
```

```
end
```

This code return

```
ActionView::MissingTemplate (Missing template stuff_to_do_mailer/recommended_below_threshold,
mailer/recommended_below_threshold with {:locale=>[:ru], :handlers=>[:rjs, :erb, :rsb, :builder],
