Redmine - Defect #11491

JSON / XML format : delete / put dont send any data

2012-07-24 10:50 - Anonymous

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	REST API	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	2.0.3

Description

I use spore in perl program and I have test it well with JSON format.

The REST::API is not very compliant on some action.

For POST / GET with have a JSON so the serializer can handle it properly and transform the result in a perl structure.

for DELETE / PUT the result is BLANK, only the status can tell if the operation is good or no. But when the serializer try to transform the BLANK result into a JSON it failed !

So The DELETE or UPDATE is effective but we got an error !

Could you please provide always a JSON or XML result in any operation ? even a empty '{}' is sufficient.

Thanks
