Description	
It would be a good to have more filters on the Administration -> Users page, I'd like them to be a bit like the filters on issues: <ul style="list-style-type: none">- Admin=yes- Last Login = empty- eMail contains = xxx- ...	

History

and sort by customfields and so on...

nice idea

not too important at the moment for us but i had the same idea some days ago when i first added a custom field to users
