**Description**

I created a new project in Redmine (In "Home" page, I clicked [Administration], next [Projects], third [New Project]. I filled the necessary fields in "New project" page and clicked [Create] button finally).

This new project is "PARENT-PROJECT".

I also created a new sub project of "PARENT-PROJECT", named "SUB-PROJECT".

When I created "SUB-PROJECT", I selected "PARENT-PROJECT" in "Subproject of" drop-down list.

So I will delete the "PARENT-PROJECT" (In "Home" page, I clicked [Administration], next [Projects], finally [Delete] on right side of "PARENT-PROJECT" column),

but "Confirmation" page has broken HTML.

```
<p><strong>PARENT-PROJECT</strong><br />
Are you sure you want to delete this project and related data?

<br />Its subproject(s): &lt;strong&gt;SUB-PROJECT&lt;/strong&gt; will be also deleted.
</p>
```

Open `<strong>` tag and close `</strong>` tag are escaped around "SUB-PROJECT".

For example:

Before:

```
PARENT-PROJECT
Are you sure you want to delete this project and related data?
Its subproject(s): <strong>SUB-PROJECT</strong> will be also deleted.
```

After:

```
PARENT-PROJECT
Are you sure you want to delete this project and related data?
Its subproject(s): SUB-PROJECT will be also deleted.
```

The strong tags put stronger emphasis on "SUB-PROJECT" string. This case, "Confirmation" page has broken HTML.

I use ruby 1.9.3 and Rails 3.2.6.
