Description

Is it possible to modify one of the controller files to change the sort order of attachments shown in issues and the wiki? They're currently all sorted by the date they were uploaded, but I'd like to sort them by file name because I get various results in the order of files I upload when I do large amoutns (20-30 files) depending on my connection and which browser I use, it starts to make pretty messy lists. It would be nice if there was a feature to set this in the administrator settings as well. I've searched all over and while I have found information about sorting files in other sections of Redmine, I cannot find anything for attachments. I hope this is the right place to submit this.

If the patch in [#1718](#1718) is accepted, we can make use of tablesort js library to implement this feature.

- File issue.png added

- File wiki.png added

- File 11543.patch added

I implemented sorting in the attachments list of Issue and Wiki (I referred to [#1718](#1718)). Name, Description, Author, Created can be sorting.
I have attached a patch.

Issue

issue.png

Wiki

#7 - 2021-04-05 12:03 - Go MAEDA

- Target version set to Candidate for next major release

#8 - 2021-05-14 03:56 - Yuichi HARADA

- File issue-v2.png added

- File 11543-v2.patch added

The following points have been fixed.

- To return the sort order to the initial state, the serial number column is added to the beginning so that it can be sorted.
- The Author and the Created were separated columns, but the Created column cannot be sorted properly because the format of the displayed date-time string changes depending on the setting of My account > Language. Therefore, the Author and the Created columns have been reverted.
