

Redmine - Defect #11776

Can't override mailer views inside redmine plugin.

2012-09-04 14:37 - Matt Andrews

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:	2.0.4	Affected version:	2.0.3
Resolution:	Fixed		
Description			
<p>You can't override mailer views as you can other views from within a redmine plugin.</p> <p>I suspect the cause of the problem is inside <code>/lib/redmine/plugin.rb</code> line 83:- http://www.redmine.org/projects/redmine/repository/entry/trunk/lib/redmine/plugin.rb</p> <pre>if File.directory?(view_path) ActionController::Base.prepend_view_path(view_path) end</pre> <p>Should be:-</p> <pre>if File.directory?(view_path) ActionController::Base.prepend_view_path(view_path) ActionMailer::Base.prepend_view_path(view_path) end</pre> <p>Because otherwise, as ActionMailer and ActionController inherit from the same class (AbstractController), any extra view path given to the ActionController won't be available to the ActionMailer.</p> <p>Redmine version: 2.0.3.stable.10173 but it seems to have not been fixed yet in trunk too.</p>
