

Redmine - Defect #11839

Text overlay when exporting issues to pdf files

Description	
<p>I'm using a lot of custom fields in my redmine issues. A lot of them are "long text" fields. When I try to export each issue to a pdf file, the text goes beyond the limits of the page. Also, when the field name is large (more than 10 characters), it overwrites its value.</p> <p>Is there a quick way to put the fields into just one column? This probably would solve my problem for now.</p>

This bug is present in version 2.1

It makes long custom text fields unreadable on exported PDF.

Also experiencing this issue in version 2.2.1 stable.

#5 - 2013-02-13 17:12 - Daniel Felix

- Status changed from *New* to *Confirmed*

Well, I think after this responses. We could set this to confirmed. ;-)

Exactly the same behaviour seen with Redmine 2.3.0stable (Ruby 1.9.3 (i386-mingw32), Rails 3.2.13). I'm long time user of Redmine, but this PDF issue with long custom fields makes pdf export totally useless :(Please help!

Same here, too.

Redmine version 2.2.1.stable

Please help.

The PDF export problem is annoying, but the patch is really simple and it is working!

May this can be included in Redmine core as a fix... please!

Thank you
