

Redmine - Feature #11919

Issues list needs some kind of "last-modified-by" mark.

2012-09-24 16:48 - Vadim K

Target version:	
Resolution: Duplicate	
Description	
<p>It would be useful to have additional column in issues list with some kind of "last-modified-by" field. For example, this would be a color mark (red = "issue was updated by author", green = "issue was updated by assignee", yellow = "issue was updated by someone else"). So, support team member could detect issues that needs his immediate attention in "My page" or particular project's "Issues" list.</p>

Have you found a solution yet?

I had the same issue on "My Page" and could not find an existing plugin which does that, so wrote my own: [last updated by column](#).

#2 - 2013-01-13 10:47 - Vadim K

Thank you, A.G.

I wrote my own plugin too. But I'm not ruby programmer, so I suppose it is fairly crippled (but still works for me).

Here is a screenshot: <https://sites.google.com/site/vadimthesis/img/redmine-plugin.png?attredirects=0>

May be I'll found a time to polish and publish it later.
