Target version:				
Resolution:	Duplicate			
Description				
We mainly run into	o this one:			
Some tasks need	to be QAed, bug fixes, new feature	es, etc.		
Some tasks do no	t (internal tweaks, small maintena	nce).		
•	"fixed" and "closes" keywords, bu ired with one action.	t they both can only set the ticket to	"Pending QA	" being as I'm only allowed
It would be nice to	be able to pair multiple sets of ke	ywords with various actions on ticke	ets.
