Revision 10658 - 2012-10-14 16:35 - Jean-Philippe Lang

Fixed that entering #nnn as parent task should validate (#11979).

History

#1 - 2012-10-12 11:34 - Jean-Philippe Lang

- Subject changed from No validation errors are displayed when update an issue with wrong "Parent task" value to No validation errors when entering a non numeric "Parent task"

- Status changed from New to Confirmed

#2 - 2012-10-12 11:39 - Jean-Philippe Lang

- Subject changed from No validation errors when entering a non numeric "Parent task" to No validation errors when entering an invalid "Parent task"

#3 - 2012-10-12 15:40 - Jean-Philippe Lang

- Status changed from Confirmed to Closed

- Assignee set to Jean-Philippe Lang

- Target version set to 2.2.0

- Resolution set to Fixed

Fixed in r10615.

#4 - 2012-10-14 14:54 - Toshi MARUYAMA

- Status changed from Closed to Reopened
- Resolution deleted (Fixed)

Sharp issue id number (e.g. #11979) validation does not work.

This functional test fails.

```
def test_post_create_subissue_with_sharp_parent_id_validate
  @request.session[:user_id] = 2

  assert_difference 'Issue.count' do
    post :create, :project_id => 1,
      :issue => {:tracker_id => 1,
        :subject => 'This is a child issue',
        :parent_issue_id => '#1'}
    assert_response 302
  end
end
```

#5 - 2012-10-14 16:36 - Jean-Philippe Lang

- Status changed from Reopened to Closed
- Resolution set to Fixed

Fixed in r10658.
