The project is edited successfully.	

Associated revisions

Revision 320 - 2007-03-09 21:03 - Jean-Philippe Lang

modified textilizable helper method:

- no more eval statement
- r12 in text will be turned into a link to the revision 12 in the repository
- #12 in text will be turned into a link to the issue 12

History

#1 - 2007-03-12 13:34 - Jean-Philippe Lang

I've committed the fix.

Thanks for your help.

#2 - 2007-03-12 12:16 - Jonathan Dance

Wow, okay... the real problem was you couldn't edit a project unless it had a

wiki. See patch.

#3 - 2007-03-12 12:07 - Jonathan Dance

It also occurs when editing the sub-project... sorry for the spam.

#4 - 2007-03-12 12:05 - Jonathan Dance

Okay, I am a liar, this doesn't happen with all projects (I should try my own steps). It only happens when editing a project when that project has a sub-project.

#5 - 2007-03-12 12:02 - Jonathan Dance

Err, this was actually tested against revision 330 (which is the current head revision).
