

Redmine - Patch #12031

welcome text in a div with class box

2012-10-05 14:25 - Cristian Messel

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	100%
<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
This patch puts Settings.welcome_text from the homepage in a div with class box, attempting to make it prettier.			
Hope you like it.			
Benefits: looks better in my opinion, looking forward to getting some feedback.

Contra. Do you want to set an invariable label "label\_welcome: Welcome"? I think you want an internationalized greeting, thats is a good idee, but this should be not only for the title. Moreover, the greeting should be alterable in the admin settings.

May we close this issue and create a relation to [#8058](#) ?

#2 - 2013-02-14 15:49 - Cristian Messel

Let me try to understand. You are saying that the greeting should also be alterable, just like the welcome label correct?

My intention with this patch was to put the alterable Settings.welcome\_text in a box.

To be honest, I do not see the benefit in having 2 alterable boxes next to each other when Settings.welcome\_text could handle that. Instead maybe I should delete label\_welcome. What do you think?

#3 - 2013-02-14 16:34 - Filou Centrinov

May it's little misunderstanding. I don't want an additional label for the welcome title and i don't want two alterable boxes. We already have one welcome text box in the administration settings that you can also alter. Why you don't want to insert your welcome title into this existing welcome text box?

What I can imagine is to improve this existing welcome text box to multilingual. Actually text boxes are not multilingual.
