Redmine - Defect #1209

"View differences" of one file at /repositories/revision/ fails

2008-05-08 08:29 - Go MAEDA

Status:	Closed		**Start date:**	2008-05-08
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:	0.7.2			
Resolution:	Fixed		**Affected version:**	

Description

"View differences" of one file at /repositories/revision/ fails.
This problem happens depending on directory depth of repository URL. 'http://svn.example.com/svn/dir' is OK but 'http://svn.example.com/svn/dir/subdir' is NG.

How to reproduce:

Consider the following conditions.

- Project name is "example_project".
- Repository URL is http://svn.example.com/svn/dir/subdir/
- A revision contains some file like "foo.rb" which url is "http://svn.example.com/svn/dir/subdir/foo.rb"

1. Set repository URL to "http://svn.example.com/svn/dir/subdir/"
2. View the revision.
3. click "View differences" of "foo.rb". You will see error message "The entry or revision was not found in the repository".

The cause of this problem is that the page "/repositories/diff/" expects the path "/project_name/foo.rb" but "View differences" passes "/project_name/subdir/foo.rb".

Fixed: View differences for individual file of a changeset fails if the subversion repository URL doesn't point to the repository root (#1209, #1262, #1275).

History

#1 - 2008-05-13 14:51 - Marco Tralles

i've the same problem using redmine 0.7.1 on my server. The production-log shows:

```
Processing RepositoriesController#diff (for 84.190.180.27 at 2008-05-13 15:04:58) [GET]
  Session ID: 3f4d9273a4c8af0b2e6c9269805ffabf
  Parameters: {"rev"=>"39", "action"=>"diff", "id"=>"project", "controller"=>"repositories", "path"=>["filenam
e"]}
Rendering template within layouts/base
Completed in 0.11232 (8 reqs/sec) | Rendering: 0.02183 (19%) | DB: 0.00000 (0%) | 500 Internal Server Error [h
ttp://redmine.domain.tld/repositories/diff/project/filename?rev=39]
```

#2 - 2008-05-16 14:53 - Chris Platts

Same here. This (for me) is a regression, since the bug was not present in 0.7-stable (currently running **0.7.devel.1432**)

My project's respository URL is set to http://some.server.com/thisProject/

The View Differences link is passing http://some.server.com/thisProject/thisProject/...

#3 - 2008-05-24 19:57 - Jean-Philippe Lang

- Category set to SCM

- Status changed from New to Closed

- Target version set to 0.7.2

- Resolution set to Fixed

Fixed in [r1446](#).
